G H Patel College of Engineering and Technology, Bakrol, Anand, India

Higher Secondary

2020 - 2022
Percentage: 80.91%

V B N Shah Jeevanbharti Kumarbhavan Uchchatar Madyamik School ,Surat, India.

PROJECTS

MedInventory - A Smart Medical Inventory System

MedInventory is a smart, scalable medical inventory system built with the MERN stack and integrated with a Flask ML API. It features a responsive UI with theme switching, automated stock/expiry alerts, smart recommendations and professional billing with multi-payment support—streamlining inventory and sales for medical stores.

JWT Authenticated Admin Dashboard Website

Secure React-Based Website with JWT Authentication and Admin Dashboard. Developed a dynamic and secure web application using React.js, featuring JSON Web Token (JWT) authentication for user registration, login, and logout processes. The application includes core pages such as Home, Contact, and Register, ensuring a seamless user experience. Implemented a fully functional Admin Dashboard with protected routes.

Restaurant Reservation System

I developed this project using the MERN stack MongoDB, Express.js, React.js, and Node.js). Knowledgeable in integrating backend, frontend, and databases to build seamless and efficient web applications. Familiar with the basic backend file structure and organization for efficient web application development.

Swiggy's Clone (Frontend)

Developed this project using React.js and Tailwind CSS for a responsive and modern user interface. This Project give me the practical Knowledge of react.js. Also learnt about how to fetch data from APIs.

TECHNICAL SKILLS

Website Development : MERN-Stack , HTML, CSS, Javascript.

Programming Languages: C,C++, Python

Database : Relational Database(mySql), MongoDB

ACHIEVEMENTS

Participated in Smart India Hackathon(2024) - Full Stack Web Development.

Participated in E-commerce and Tech Quiz of the Filpkart Grid 6.0 Software Development Track.
